ABOUT THE KARNATAKA STATE TRIBAL RESEARCH
INSTITUTE

The Karnataka State Tribal Research Institute (KSTRI), located in Mysore, is a key institution sponsored by the Ministry of Tribal Affairs, Government of India, and operates under the Tribal Welfare Department of the Government of Karnataka. The Institute began functioning independently in July 2011 and has since been a pivotal body in advancing the socio-economic development of Scheduled Tribes in the state.

KSTRI undertakes a wide range of activities aimed at the overall welfare and empowerment of tribal communities. These include conducting research on various aspects of tribal life, culture, and development, offering training programs for capacity building, and carrying out evaluation studies to assess the impact of tribal welfare schemes. The Institute also organizes seminars and workshops to facilitate dialogue and knowledge-sharing on tribal issues.

In addition, KSTRI plays a significant role in the publication of books, handbooks, and articles that document the rich cultural heritage and challenges faced by tribal communities. It also produces documentary films that highlight the lifestyle, traditions, and challenges of tribal populations. To further preserve and promote tribal heritage, the Institute is in the process of establishing a Tribal Museum and a Library that will serve as a resource center for scholars and tribal community members alike.

Through these initiatives, the Karnataka State Tribal Research Institute seeks to contribute to the socio-cultural preservation, educational empowerment, and economic upliftment of the tribal communities of Karnataka.

ABOUT THE CAPACITY BUILDING PROGRAMME (CBP)

The Karnataka State Tribal Research Institute (KSTRI), under the Department of Tribal Welfare, Government of Karnataka, is pleased to announce a 10-day Capacity Building Programme on Research Methodology, exclusively designed for Scheduled Tribe (ST) research scholars. This intensive programme aims to empower ST scholars who are currently pursuing M.Phil., Ph.D., or Post-doctoral research by equipping them with essential research skills, tools, and methodologies to conduct high-quality academic research, particularly in the domains relevant to tribal communities and social sciences.

THE OBJECTIVES OF THE PROGRAMME

Scheduled to be held at the KSTRI premises in Mysuru, the programme will cover a comprehensive curriculum that includes both theoretical and practical components of research methodology. Participants will be trained in the basics of Quantitative and qualitative research techniques, Research design, Sampling methods, Data collection tools, Statistical analysis using software like SPSS and R, and Plagiarism ethics. Special sessions will focus on conducting literature reviews, Managing references using software tools, and improving academic writing and publication skills. Additionally, the programme will emphasize research in tribal studies, fieldwork methodologies, and culturally sensitive research practices.

RESOURCE PERSONS AND METHOD OF COURSE

The programme will be facilitated by distinguished academicians, research methodologists, statisticians,

and field experts from premier institutions across India. Through interactive lectures, group discussions, hands-on activities, and peer-to-peer learning, the programme aims to build participants' competence and confidence to undertake rigorous academic research. Scholars will also gain insights into publishing in reputed journals, presenting papers at academic forums, and developing impactful research proposals.

In recognition of the participants' commitment, KSTRI will provide certificates upon successful completion of the programme. Participants will be provided with a comprehensive research toolkit, which includes reading materials, templates, and digital resources to support their on-going research work. Food and accommodation will be arranged for outstation participants, and eligible participants will be reimbursed for travel expenses as per institutional norms.

This initiative reflects KSTRI's commitment to fostering academic excellence and inclusivity by nurturing the research potential of Scheduled Tribe scholars. It offers a unique opportunity for tribal researchers to strengthen their methodological foundations, network with peers and experts, and contribute meaningfully to the field of tribal studies and development research.

ELIGIBILITY FOR PARTICIPATION

Participants must be enrolled in M. Phil., Ph.D., or Post-Doctoral Fellowship (PDF) programs at a UGC-recognized university, deemed university, college, or institute of national importance. A maximum of **fifty (50)** participants will be selected for this course.

Preference for selection will be given in the following order:

- 1. First Preference** – Candidates belonging to Scheduled Tribes (ST) who are conducting research on Tribal communities.
- 2. Second Preference** – Candidates belonging to Scheduled Tribes (ST) who are conducting research on non-tribal communities or topics unrelated to tribal issues.
- 3. Third Preference** – Non-ST candidates conducting research related to Tribal communities.

HOW TO APPLY

Interested and eligible candidates must fill out the application form (format attached herewith) and have it duly forwarded by the competent authority of their affiliating institution. A **scanned copy** of the completed and forwarded application form must be sent via email to: **kstriseminar@gmail.com**

The last date to apply is **28th July 2025**.

Short listed participants will be informed by **31st July 2025**.

Applications received after the deadline will not be considered.

REGISTRATION FEE

The registration fee is ₹ 500 for M.Phil. and Ph.D. scholars, and ₹ 1000 for Post-Doctoral Fellows. The fee should be paid through a Demand Draft (DD) drawn in favour of Director, Karnataka State Tribal Research Institute, payable at Mysuru.
